SPARTAN PARTS PROGRAM

INTRO + CONTACTS

In today's competitive market, maximizing parts performance and profitability is more important than ever. To support dealers in driving higher-margin, high-impact sales, Spartan is excited to introduce our Pre-Season Performance Parts Program. This program is designed to reward dealers who invest early in performance-driven service and upgrade parts that keep Spartan equipment running at peak levels. Dealers can earn up to an additional 5% above standard 2026 parts margins by participating in this limited-time preseason incentive. The incentive applies to performance-focused service and replacement parts and excludes whole goods, complete decks, kits, and serialized components.

To qualify, Spartan Dealers must submit a preseason performance parts booking order by:
